Work Experience

Junior Front-End Developer

- I have no work experience. I am interested in programming, especially in the Front-end direction.

- I do small projects and websites using: HTML, CSS, Javascript, React.js.

- I think that I can achieve a lot by working on myself.

The projects I was working on

- 'Responsive Persnola Portfolio', 'ResponsiveAdmin Dashboard', 'Parallax ScrollingWebsite', 'Responsive e-Commerce website Product Cards', 'Glassmorshipm Button Hover Effects', 'React (simple) Pages', 'React Product-Cards with Search Box', 'React e-Commerce Website'

Education

I Started Studying Front-End

- Bitcamp III Stages

- Code-org - Full Course.

- W3Schools.com - HTML,CSS,Javascript.

- Udemy.com - HTML,CSS,Javascript.

- Fullstackopen.com - Javascript,React.js,Node.js, State management with Redux, React router, custom hooks, styling app with CSS and webpack.

- Freecoursesite.com - advanced-Javascript-contents.

- 2021- up to date - learning React.js From Codevolution, Academind, Programming with Mosh and at the same time, I use them in practice.

- I do small projects with React that support the: Infinite Scrolling, Api, Router and Redux.
